SUBJECT: HUMAN COMPUTER INTERACTION (DITM 1313)

TITLE: High Fidelity Prototype

ParknGo – Smart Parking Reservation Application

Prototype link:

<https://www.figma.com/proto/TvvVPJU4aeGx3RIQqhkFoN/Parking-App-Design-UI-Figma--Community-?node-id=201-2040>

A smart parking application that will make your parking experience easy and stress-free. With ParknGo, users will reserve parking places in advance and save time and effort from circling in search of a space.

This application also includes a map feature that provides real-life navigation directions to the selected parking location. This prototype shows a functional interface, complete with full navigation and key features.
